WAR, PEACE

ing his country and the military-diplomatic situation in Vietnam, where South Korea has nearly 50,000 troops in action.

—Two Americans and two South Koreans in uniform were killed by Communist intruders from the North last Sunday near Panmunjom. U.S. officials suggested this most serious recent incident along the demarcation line between North and South may have been deliberately timed because of the Johnson-Park meetings.

—Park, on leaving his homeland for Honolulu, lauded Johnson's new initiatives toward a Vietnam peace but seemed to express a bit of restiveness by adding "there is a limit to concessions and patience."

—Foreign Minister Tran Van Do of South Vietnam suggested in Saigon the allies in the Vietnam war might do well to hold a summit conference in advance of any substantive peace talks with Hanoi. American officials said it would be premature to consider such a move in the absence of any firm indication that such talks will take place.

In Washington an official who asked not to be identified said a third party might be needed to settle the issue of where the initial peace contacts should be made.

The United States and Hanoi have been squabbling over this question, with Washington contending it should be in a neutral country while Hanoi has suggested Warsaw in Communist Poland, and Phnom Penh, Cambodia.

This official's comment generated speculation the Soviet Union or the United Nations secretary-general, U Thant, might be asked to help get the talks under way.

Animal, Not Flower
The sea lily is actually an animal. The featherlike arms which radiate about the head make the animal look like a flower and are responsible for the name "sea lily."

Child Drowns at El Dorado
EL DORADO, Ark. (AP) — Two-year-old Felicia Ann Murphy, daughter of Mr. and Mrs. Joe C. Miller of El Dorado, drowned Tuesday when she apparently fell into the swimming pool at her home here. Her mother found her body in the pool.

LET'S TALK ABOUT MOVIES
By VELDA SEAMANS

The second feature is Robert Vaughn and Elke Sommer in an exciting new suspense story, "The Venetian Affair."

Humphrey, Nixon Are Favorites

WASHINGTON (AP) — An Associated Press poll indicates the nation's newspaper editors rate Vice President Hubert H. Humphrey and former Vice President Richard M. Nixon as heavy favorites to be pitted in next November's race for the White House.

Humphrey, still silent on his political plans, was stamped a better than 2-1 favorite over Sen. Robert F. Kennedy, D-N.Y., in a random poll of 80 editors attending the American Society of Newspaper Editors' annual convention.

Sen. Eugene J. McCarthy, D-Minn., like Kennedy a declared candidate for the Democratic nomination, didn't receive a single vote in the sampling.

On the Republican side, Nixon — the only declared GOP candidate — was a prohibitive favorite over such potential challengers as New York Gov. Nelson A. Rockefeller and Gov. Ronald Reagan of California.

Those picking Humphrey credited him with the advantages of an incumbent administration's party following plus backing from labor and solid support in the South.

"I think the organization will take it in the end. It usually does," said H. P. McCall, editorial page editor of the New Orleans Times-Picayune.

Editors were asked who they thought would win the nomination of each party, rather than who they preferred personally.

These were the results on the Democratic side: Humphrey, 46; Kennedy, 20; President Johnson, 4; McCarthy, 0; Undecided, 10.

The Republican sampling: Nixon, 62; Rockefeller, 14; Reagan, 2; Undecided 2.

A year ago in a poll of ASNE members Nixon enjoyed a 3-to-2 edge over Michigan Gov. George Romney, who has since bowed out of the race. President Johnson was a unanimous choice of 103 editors interviewed at the 1967 ASNE convention. He has since said he won't seek or accept renomination.

William J. Clew, managing editor of the Hartford Courant, said Humphrey would inherit the sympathy for Johnson stemming from the President's abrupt withdrawal.

Brady Black, editor of the Cincinnati Enquirer, credited Humphrey with labor support. Henry Belk, editor of the Goldsboro (N.C.) News-Argus, added, "He hasn't got the horns in the South he used to wear."

Charles Pearson, editorial page editor of the Wichita Eagle and Beacon, said Humphrey will have strength "in areas where Kennedy is unpopular, which is a lot of areas."

William B. Dickinson, managing editor of the Philadelphia Bulletin, differed in choosing Kennedy as the likely nominee. Dickinson said, "I think he has charisma. I think he has many political skills. And he certainly has ample financing."

Thomas L. Boardman, editor of the Cleveland Press, was one of the four who tapped Johnson for the nomination despite his disavowal.

"I think something will come of the Vietnam peace talks and he won't be able to back away from it," Boardman said.

In making Nixon the runaway Republican pick, many of the editors agreed with Harry L.

WASHINGTON (AP) — Army Pfc. James C. Cochran, son of Mrs. Ora B. Cochran of Hardy, Ark., has been killed in action in Vietnam, the Defense Department announced Tuesday.

Economy Brings Fear of Inflation

By JOSEPH R. COYNE
Associated Press Writer
WASHINGTON (AP) — A record-shattering performance by the nation's economy so far this year has government experts worried about inflation and how to sustain the boom.

They see the record as proof of the need for higher taxes.

The expansion, now in its eighth year, featured a record spurt in consumer spending and rising industrial production during the first quarter of this year but it also produced an inflation rate of four per cent annually.

"Absolutely unsustainable," was the way one analyst described the record dollar advance of \$20 billion in the quarter. The Commerce Department reported the record performance Monday in estimating the value of all goods and services produced in the economy — the Gross National Product — at an annual rate of \$327.3 billion during the first quarter.

The GNP is the most comprehensive yardstick of economic activity and government economists consider the performance of the last nine months unsustainable over the long run. It rose by \$16.1 billion in each of the previous two quarters.

They list an advance of about \$12 billion to \$14 billion as one which can be sustained with stable prices.

The Federal Reserve Board meanwhile reported industrial output during March at a record 162.1 per cent of the 1957-59 base period.

Batesville Votes for Bond Issue
BATESVILLE, Ark. (AP) — Batesville voters approved a \$600,000 Act 9 of 1960 bond issue Tuesday to enable the White Rodgers Division of the Emerson Electric Co. to enlarge its plant here. The vote was 581 to 4.

The plant plans to expand from 72,000 square feet to 100,000 square feet. White Rodgers presently employs about 500 persons and anticipates that its employment will increase with the enlargement of its facility.

Sonneborn, managing editor of the Milwaukee Sentinel, who said, "I think he's way out in front at this time."

Humphrey was host at a White House reception for the editors Tuesday night. Rockefeller is scheduled to address the convention Thursday and Nixon will speak Friday. Sen. and Mrs. Kennedy will greet the editors' wives at Hickory Hill, their suburban McLean Va. home, Thursday.

5 Inmates Killed in Prison Riot

By MIKE PUTZEL
Associated Press Writer
RALEIGH, N. C. (AP) — Five prisoners were killed and 80 persons injured early today when guards at North Carolina Central Prison fired on a crowd of about 500 demonstrating prisoners.

Five of the injured were guards, the others prisoners, State Correction Commissioner V. Lee Bounds said the riot erupted shortly after 1:30 a.m., when the inmates set fire to a small building in the yard of the maximum security facility and "began throwing lighted torches at unarmed custodial officers."

About 45 state highway patrolmen and 50 Raleigh policemen responded to the prison's emergency call for support for prison guards.

Prisoners had staged a sit-down strike in the yard Tuesday and presented a list of grievances to Commissioner Bounds, who said he refused to negotiate with the inmates.

"I talk to inmates daily, but I do not yield to inmate demands that I do anything," Bounds said afterward.

He said the demonstrators were confined to an open yard by custodial officers armed with

chemical MACE and nightsticks. After the building was set afire, Bounds reported, the prisoners — many of them armed with homemade weapons and torches — began to advance on the guards on the grounds.

"They began throwing lighted torches on the unarmed custodial officers, and the armed custodial officers began opening fire," Bounds said.

Armed guards stationed on the walls of the 75-year-old structure in Raleigh fired down on the crowd with shotguns.

Bounds said the five officers injured in the brief battle received minor wounds from ricocheting shot and prisoners' weapons. Some of the injured inmates, he said, were reported in critical condition at the prison hospital, and three men were taken to a Raleigh hospital when the prison hospital was filled to capacity.

Plan Attracts Underprivileged
AMHERST, Mass. (AP) — Trustees of the University of Massachusetts have approved a new program to attract underprivileged Negroes to the campus.

The plan, approved Monday, would lower admission standards for Negroes from ghetto areas, set up a tutorial program for entering Negro students and provide financial grants.

The university now has 85 Negroes among its 10,600 students, a school spokesman said.

SCHOOL LUNCH

gram from \$28.5 million over three years starting July 1 to \$13 million over two years. Harv's amendment would restore the House figures.

Secretary of Agriculture Orville L. Freeman has said his department will consider whether national guidelines should be instituted to help states and communities decide which children should get free or reduced-price meals under the regular school-lunch program.

Freeman's statement came Tuesday after a churchwomen's committee charged the program is failing to feed millions of children who are too poor to pay the costs of a basic meal. It called for a nationwide free-lunch program and said a study showed many poor children are going hungry because there are no uniform eligibility standards.

"That children are hungry in wealthy America is an outrage which the conscience cannot permit officialdom to explain away," said Jean Fairfax, chairman of the Committee on School Lunch participation.

The committee consists of representatives of the National Council of Catholic Women, the National Council of Jewish Women, the National Council of Negro Women, Protestant Church Women United and the Young Women's Christian Association. It surveyed programs in 45 communities in 30 states.

Miller Wants to Head the Young Demos

CONWAY, Ark. (AP) — Frank Miller, 21, a political science major at State College of Arkansas here, said today he was a candidate for president of the Arkansas Young Democrats Clubs.

Miller said he had opened an office at Conway. The YDC convention begins Friday at Hot Springs.

Miller is from Weldon (Jackson County) and currently serves on the YDC State Executive Committee.

Roy Lee Hight of Little Rock is the present YDC president.

Negro Man Found Shot to Death

OSCEOLA, Ark. (AP) — Mississippi County Coroner Jim Stovall said today that the unidentified Negro man found near here Monday was shot to death.

Stovall said the man was shot once in the chest. He was found in a field about five miles south of here by a youth walking home from school.

The sheriff's department said the man's fingerprints had been sent to Washington in an effort to establish his identity.

Mr. and Mrs. Jett Williams,

IN THE RICH (From Page 1)

you might try:

Exercise your muscles and your mind more. Leave your car in the garage and walk more often. If all the new books seem uniformly dull, go back to poetry—Emily Dickinson, Robert Frost, A. E. Housman, Rudyard Kipling, Tennyson, Browning. Any poet.

If your friends weary you, stay away from them for a while. If your enemies bore you, try making friends of them.

Talk more often to children and old folks, less often to people your own age.

Eat lunch at a different restaurant every day.

Get angry about something. Join something bigger than yourself and become active in it—a religion, a political party, a local crusade to plant flowers around the city dump.

Write a personal letter to someone each day.

Wear a polka dot bow tie to work at least once a month, and chase a new girl around the water cooler.

Visit a hospital ward occasionally to see what real trouble is.

Take a long cold shower every time you begin to feel sorry for yourself—no matter how much it runs up your water bill.

Jr. and Jett, III returned to their home in Houston Sunday after visiting Mrs. Jett Williams and Mrs. I. F. Russell.

Charles H. Benson, Dallas, was the Easter guest of his parents, Mr. and Mrs. H. E. Benson.

The town of East Hampton, Long Island, inspired John Howard Payne to write "Home, Sweet Home."

Aged Star Is Nominated for Award

By LINDA DEUTSCH Associated Press Writer

HOLLYWOOD (AP) — Decades after he starred in love stories on the screen, Melvyn Douglas is winning acclaim in television.

The 67-year-old Douglas, as the white-haired star of "Do Not Go Gentle Into That Good Night," won one of six Emmy nominations Tuesday for that dramatic special on aging.

Douglas portrayed an old man unwillingly consigned to an old folks home by his family. Supporting actor Lawrence Dobkin also was nominated. The show was also listed for honors among single dramatic programs for writing by Loren Mandel, direction by George Schaefer and electronic camera work.

"Mission: Impossible," a secret-agent adventure series, won the most nods from the National Academy of Television Arts and Sciences with 11 nominations.

Included were nominations for its husband-wife costars, Barbara Bain and Martin Landau. She was a winner last year along with the show as outstanding drama series. Landau was nominated last year. Besides best series nomination, "Mission: Impossible" is listed for single-episode achievements in writing, direction, musical composition, editing, art direction and cinematography.

The golden Emmy statuettes—television's equivalent of the Oscars—will be handed out by the National Academy of Television Arts and Sciences at 20th annual ceremonies May 19 in Hollywood and New York.

Frank Sinatra will emcee the Hollywood show with Dick Van Dyke heading ceremonies in New York.

The Emmy winners are chosen by secret ballots cast by what the academy calls "blue ribbon panels" composed of the most accomplished individuals from television, motion pictures, the theater and the academic world. Nominations are made by the academy's 6,000 members and by craftsmen and producers.

Another special drama, "Dear Friends," dealing with marital problems, won five nominations as did "I Spy," "Bewitched," the Fred Astaire Show, and "He and She."

Split among the three networks, the nomination totals were CBS 63, NBC 56, and ABC 36.

Coverage of the Middle East war by all three networks was recognized with nominations in various categories. Seventeen news documentaries received nominations for outstanding achievement as did 20 cultural documentaries.

Briles Hurls Cardinals to Victory

By MIKE RECHT
Associated Press Sports Writer
Two plus 12 equals 12 to mathematicians and baseball statisticians, but not to Nelson Briles. Not when money is involved, he says.

"I haven't won 12 straight games," insisted the St. Louis hurler, who captured his last 10 decisions in 1967 and ran his record to 2-0 this year by pitching the Cardinals past Atlanta 6-2 Tuesday night.

"It's just two in a row. I already got paid for last season."

Two or 12, Briles' logic failed to impress the Braves as much as his fast ball that stopped the home club with only two unearned runs for eight innings before Joe Hoerner pitched the ninth.

His victory continued the fast getaway of the world champion Cardinals, who moved back into a tie for first place with the Houston Astros.

Lower in the standings, Los Angeles did some hitting for a change and powered past Philadelphia 5-3 in a night game after Cincinnati outlasted the Chicago Cubs 9-8 in the afternoon in the only National League games scheduled.

In the only American League games, Detroit hammered Boston 9-2, Cleveland nudged the Chicago White Sox 3-1 and Oakland tripped the New York Yankees 4-3.

Briles, who received a big pay raise after recording a 14-5 record and one World Series victory last season, appears to have his mind and arm attuned to more victories that add up to more money this year.

The right-hander, who came out of the bullpen and performed sensationally as a starting replacement for injured Bob Gibson in 1967, scattered nine hits against the Braves, who broke through only with the aid of an error.

Briles held a 6-0 lead for 6-2-3 innings before catcher Tim McCarver dropped a foul pop and Hank Aaron and Felipe Alou followed with run-scoring singles. It was not enough to overcome Orlando Cepeda's four hits and three runs batted in and a homer by Mike Shannon off loser Tony Cloninger.

Only a blister on his index finger, the result of throwing his fast ball, kept Briles from finishing.

"I don't like to think about losing at all," Briles said. "All I think about is winning 20 games like any other pitcher."

Mike Kekich, who just turned 23, might also be dreaming of 20 some day, but right now his mind is on No. 1, his first major league victory.

The left-handed rookie pitcher, who lost to Philadelphia in his only other big league start in June 1965, had the Phillies blanked for seven innings before two singles knocked him out at the start of the eighth. Richie Allen singled in two runs off Phil Regan before Hank Aguirre put out the fire after a sacrifice fly by Tony Gonzales.

However, the Dodgers, who have been shut out three times this season and scored only four runs in five games, had broken loose earlier for a 5-0 lead as Wes Parker, Zoltie Versalles and Willie Davis doubled in runs.

Cincinnati had to come from behind after the Cubs scored seven times in the third inning for a 7-5 lead. Lee May climaxed the comeback with his fourth hit, a single that drove in the winning run in the ninth inning. He knocked in two other runs earlier with a homer and a single.

Defense Is Tested by Porkers

FAYETTEVILLE, Ark. (AP) — Arkansas' No. One offense tested the No. One defense in a scrimmage game Tuesday in the Razorbacks' spring football practice and both pleased Coach Frank Broyles.

Broyles kept the offense on the ground for the most part and said, "The defense was encouraging and aggressive and made it tough for the offense."

Quarterbacks Bill Montgomery, a sophomore, and Gordon Norwood guided the red squad to six first downs each but it was junior fullback Richard Coleman who drew recognition from Broyles.

"Coleman ran and blocked well," Broyles said. Coleman broke for ten yards twice behind Norwood. Broyles also complimented tailbacks David Dickey and Billy Burnett.

Broyles did not use quarterback John Eichler, who guided the Porkers in several games last year. However, defensive end William Ketcher, who has been out with a pinched nerve, returned to the lineup.

"I was very pleased with today's practice," Broyles said.

Hawks Win, Complete a Fine Comeback

By THE ASSOCIATED PRESS
Chicago Black Hawk Coach Billy Reay, who finished a winner, spoke about his penalty killers and defenseman Doug Jarrett's good game. New York Ranger Coach Emile Francis, a loser, was left with only philosophy.

The Hawks' 4-1 victory over the Rangers Tuesday night completed a remarkable four-game comeback. New York had taken a two-game lead in their National Hockey League Stanley Cup semifinal series and seemed all but certain to make it past the first playoff round for the first time since 1950.

Reay gave full credit to his team of penalty killers — Eric Nesterenko, Chico Maki, Bobby Hull and Stan Mikita — who successfully kept the Rangers away from the net three times in the second period with the score tied 1-1.

"Give those penalty killers credit for keeping us in the game in that second period," said Reay, "and add to it that Doug Jarrett played his best game of the year for us."

Francis also gave credit to Hull and to Chicago's Dennis DeJordy, but kept a ringing West Division semifinals at three games each.

back to Bob Schumatz's goal in the fifth game of the series Sunday that beat the Rangers 2-1.

"That goal really killed us," said Francis. "We outplayed them in that game and I thought we should have won it. It's funny — sometimes it's better to be

lucky than good."

In the other NHL Stanley Cup playoffs, Minnesota beat Los Angeles 4-3 in an overtime period to tie their best-of-7 series at three games apiece and Philadelphia edged St. Louis 2-1 in two overtimes, knotting that West Division semifinals at three games each.

The Black Hawks meet Montreal in the first game of the East Division finals at Montreal Thursday night. The Canadiens won their series four straight from Boston.

Jarrett scored first against the Rangers, who hadn't lost four games in a row all season, but Rod Gilbert tied it up with a goal early in the second period.

Tigers Lower Boom on the Bosox

By ED SCHUYLER JR.
Associated Press Sports Writer
The Boston Red Sox raised their first American League pennant in 21 years, then the Detroit Tigers lowered the boom.

Detroit wrecked the defending champions' home opener with an eight-run fourth inning for a 9-2 victory, the Tigers' fourth straight after a first-day loss.

"It's a long season. This is just the beginning," said Manager Mayo Smith of the Tigers' fast getaway.

For Boston skipper Dick Williams, it probably seemed like the season might end before the fourth inning did as 13 Tigers went to the plate.

While the Red Sox were having "just one of those days" in the words of Williams, Oakland was beating the New York Yankees 4-3 on Floyd Robinson's two-run pinch homer in the ninth and Cleveland was topping the Chicago White Sox 3-1 on Tony Horton's two-run shot in the seventh. There was no other AL action.

In the National League, Cincinnati outlasted the Chicago Cubs 9-8 in a day game and in night action, St. Louis trimmed Atlanta 6-2 and Los Angeles held off Philadelphia 5-3.

The Red Sox, now 2-3, got a run in the second inning on Joe Lahoda's double and Elston Howard's single, two of the four hits Earl Wilson allowed Boston all day.

Ray Culp allowed Detroit one hit in each of the first three innings but not runs. Then came the fourth.

Bill Freehan singled and Jim Northrup walked. Then with one out Earl Wilson singled to score one run, and Dick McAuliffe walked, loading the bases. Don Wert singled home two runs and McAuliffe and Wert advanced on Lahoud's error in right field.

Al Kaline filed out, but when third baseman Dalton Jones dropped the relay, McAuliffe scored and Wert went to third. Willie Horton doubled in a run. Norm Cash walked and Bill Freehan got an infield hit to again load the bases.

With a 2-0 count on McAuliffe, Lee Stange relieved Culp and walked in a run. Ray Oyler then singled in the final two runs of the inning.

Robinson's homer that wrecked the Yankees came on the first pitch from Dooley Womack, who had put down an Oakland rally in the eighth inning in which the Athletics scored a run. John Donaldson was on through a single when Robinson unloaded.

New York scored all of its runs in the first. Reggie Jackson got the A's first run with a third-inning homer.

Chicago's Joe Horlen was working on a two-hitter until Duke Sims beat out a grounder opening the seventh, and Horton followed with his homer. The Indians added another run in the inning. Pete Ward homered for the Chicago run in the top of the seventh.

Homers Are Undoing of Travelers

MEMPHIS (AP) — Memphis slamed four home runs to defeat Arkansas 10-2 in Texas League action here before a capacity crowd of 5,447 in Blues Stadium.

First baseman Chico Diaz, who accounted for five runs batted in, slamed two homers — three runs coming on a homer in the seventh. Loyd Flood and winning pitcher Steve Ranko hit the other two.

Arkansas took the lead in the top of the first when Billy Wolff walked around for the first run. Diaz matched that with his first homer in the second.

Highly touted pitcher Santiago Guzman was chased after giving up four runs.

Oakland to Get Look at New Home

OAKLAND (AP) — The Oakland Athletics, tied for third in the American League, get their first look at their new home, the

Coliseum, before a sellout crowd of 50,000 tonight.

Gov. Ronald Reagan will be there. And a host of civic and baseball officials, including William Eckert, baseball commissioner, and Joe Cronin, president of the American League.

So will Charlie O, the fire white mule mascot, resplendent in the A's colors—gold, green and white—and a private trailer equipped with stereo and air conditioning.

So will A's owner, Charles O. Finley and Mrs. Finley, and their seven children, and his parents, Mr. and Mrs. Oscar A. Finley of Laporte, Ind.

There will be the 115-piece University of California marching band.

Cokes Win Over South African

DALLAS (AP) — Curtis Cokes used Willie Ludick's unorthodox style to his advantage and beat the South African steel fitter on a fifth-round technical knockout in the fourth defense of his world's welterweight boxing championship Tuesday night.

Then he said he would take a rest until about June and also that he didn't have anybody in mind at this time for another title fight.

Percy Pugh of New Orleans, rated No. 2 by the World Boxing Association, was here to challenge Cokes.

But Doug Lord, Cokes' manager, said promoter Lou Messina of New Orleans would not give him a guarantee of \$30,000. "Messina said a title fight at New Orleans would draw \$75,000 but he would offer only 40 percent," said Lord.

"The time we fought at New Orleans—when Cokes won the welterweight title in 1966—the gate was only \$23,000. That wouldn't give Cokes enough money to put his title on the line."

Ludick, a 26-year-old brawler, had little chance with the sharp-punching Cokes, who started out with his familiar counter-punching with his left.

But the left-handed Ludick presented a perfect target for Cokes' right. The champion used his right more than any time in his career and it was a steaming right in the fifth that put Ludick on the downward trail.

Ludick took the automatic eight-count at the insistence of referee Lew Eskin, but he still was groggy when Cokes was at him with lefts and rights that battered him into the ropes. Eskin stopped the scheduled 15-round fight at 34 seconds of the fifth round.

Cokes opened a cut over Ludick's right eye with one of his lightning lefts in the second round and the South African bled the rest of the way. Cokes also opened another cut just below the first cut and cracked the skin by the side of Ludick's nose. Ludick also had a cut on top of his head.

The champion was without a blemish and said "he never did hurt me and I can't recall but a couple of left-hand shots that even stung."

Cokes led by a wide margin in the four rounds. The judges and referee had it 40-35, 40-36 and 40-35 and The Associated Press

scored it 40-36 under the 10-point must system.

Cokes, who will be 31 years old in June, has been campaigning 11 years and his record now reads 53 victories, eight losses and two draws.

Ludick had a record of 27 victories and two losses, both on cuts, coming into the ring Tuesday night. He has been fighting for six years.

The fight drew the all-time high in money for Dallas fights, Norm Levinson, co-promoter, said there was a crowd of more than 6,000 paying over \$52,000 and that there would be more than \$20,000 from television.

The Lighter Side of Sports World

By BEN OLAN

NEW YORK (AP) — Laughing At Sports:

A mayor's advisory committee recommended the demolition of San Francisco Candlestick Park. Sounds like another revival of "Gone With The Wind."

Bob Goalby donned the green jacket symbolic of winning a Masters Golf Tournament. Hard luck Roberto de Vincenzo was fit to be tied.

A grocery chain bought 10,000 tickets to an ABA playoff game and sold them at the rate of two for 29 cents with each grocery purchase. Sounds like a package deal.

An Army-bound pitcher asked his manager to be reclassified... from a reliever to a starter. Minnesota slugger Harmon Killebrew testified under oath in a U.S. District Court case that the Twins would have a great year. He took first place rather than the fifth.

Nine North American Soccer League teams face the loss through suspension of 17 players. They may have to ask for more foreign aid.

Now that the New York Yankees have become the first baseball team to sell tickets via a computer system, how can the others ducat?

A new rule stipulates that major league baseball umpires must be at least 5-foot-10. The shorter ones arbitrate about it.

With an 0-4 record and Tommy Davis, Ken Boyer and Jack Fisher on their roster, the Chicago White Sox look like this year's New York Mets.

Charlie Finley doesn't have the best baseball team in the new Oakland Athletics. But he's got two famous names running the club... Joe DiMaggio and Robert Kennedy.

Woman Sues for Right to Be Umpire

By WILL GRIMSLEY
Associated Press Sports Writer
NEW YORK (AP) — Bernice Gera, the Long Island housewife who wants to add a little sex to the national pastime, said today she is suing organized baseball for the right to be a lady umpire.

"I have retained a lawyer and we are taking our case to the courts," the thirtyish matron from Jackson Heights, N.Y., announced. "The commissioner (Gen. William D. Eckert) refuses even to let me make out an application."

Bernice's lawyer is Mario Biaggi of New York, who said he intends to bring the case first before the State Commission on Human Rights.

"We probably will file under section 236, paragraph six, that deals with discrimination, including sex," Biaggi explained. "Mrs. Gera has been thwarted and wronged at every turn. She has written to all the proper authorities, taken the necessary steps and received nothing but rebuffs."

Mrs. Gera, wife of a freelance photographer, graduated magna cum laude from an umpires School last year in West Palm Beach, Fla., the only woman enrolled, and later umpired the National Baseball Congress in Wichita, Kan.

"I didn't have too much trouble," Bernice explained. "The chest protector didn't fit very well—those things aren't made for women. And the players tried to give me a hard time." Eckert's office acknowledged that correspondence had been received from Mrs. Gera but a spokesman said: "It is a matter up to the league presidents and Ed Doherty in Columbus, who is in charge of umpires' development."

"I'll take it to the Supreme Court if necessary," Bernice said. "It's a violation of the Constitution."

Mrs. Gera said that umpiring is strictly a matter of judgment—not of strength or physical prowess—and a woman can exercise this judgment as well as a man.

Rockefeller Welcomes ABC Action

LITTLE ROCK (AP) — Gov. Winthrop Rockefeller said Tuesday he welcomed the new Alcoholic Beverage Control Board regulations permitting private clubs to serve mixed drinks but that he expected the decision to be challenged in court.

The governor also said he would not include mixed drink legislation in the second special legislative session scheduled next month but conceded, "I don't think it's every going to be totally resolved until the legislature decides on it."

Rockefeller said that if he were re-elected he would support a mixed drink bill if it were introduced in the 1969 General Assembly.

In announcing the surprise move Monday, the ABC Board cited a 1935 law, under which the board created a Class 6 license for hotels, restaurants and clubs.

The board omitted restaurants and hotels in establishing its new regulations but Rockefeller said he hoped some hotel and restaurant owners would take the initiative in seeing if they could obtain a permit to dispense mixed drinks.

Rockefeller expressed surprise that the question of serving mixed drinks had not gone to court before now and indicated he would welcome such a test. He made no indication of bringing suit himself.

The governor said he did not "find anything strange" that attorneys for some private clubs worked with the ABC in drafting the set of regulations.

Earlier Tuesday, Rockefeller met with Employment Security Division and other state officials in an effort to end job discrimination against Negroes in Arkansas.

The governor suggested employment officials take the time to eliminate conflicts between Negro job applicants and potential employers. He said too many Negroes, well equipped for their jobs, quit because of pressure of the work environment.

New Missile Production Is Speeded

By BOB HORTON
AP Military Writer
WASHINGTON (AP) — The Navy is moving swiftly toward production of a new weapon nicknamed the Zap missile to bolster U.S. capabilities for beating down North Vietnamese anti-aircraft guns.

Zap is an acronym for zero anti-aircraft potential. Details of the missile's planned capabilities are closely guarded but work is far enough along that officials are being allowed to discuss generally its mission.

The Zap, sources said, will be a solid-fueled "hypervelocity" rocket that will fly at speeds around 2,000 miles per hour and detonate with shattering effect

over enemy flak sites. Within two years the missile is expected to go aboard Navy fighter-bombers and may also be used by the Air Force.

Industry expectations are that production of the Zap will soar to several hundred thousand per year by about 1972 with annual spending of about \$50 million.

"We will be able to just plaster the ground with this thing," one officer said.

Zap will have a conventional explosive warhead of unspecified size designed to go off just before it hits the ground with a special high-fragmentation effect.

The weapon's fantastic speed is critical to the mission. With Zap the pilot of a 1,400-m.p.h. Phantom jet, for example, will be able to launch his weapon almost point-blank at an enemy target while zooming at supersonic speeds.

With what sources called the missile's "instantaneous acceleration" there will be no danger the pilot might overtake his own weapon in flight. Instances of planes being shot down by their own missiles have occurred.

At the same time, with Zap's new dispersing warhead the pilot won't have to be too concerned with precise targeting. Looking at it from the standpoint of a Navy pilot assigned to knock out anti-aircraft sites in advance of a bombing raid, the officer explained:

"You'll be beating down the flak not only for the boys behind you, but for yourself."

Candidates Chided, He May Run

FORT SMITH, Ark. (AP) — Ted Boswell, a Little Rock attorney, chided the announced field of gubernatorial candidates Tuesday night and said he might be forced to run for governor.

Boswell told a meeting sponsored by the Chamber of Commerce and League of Women Voters that "unless the announced candidates for governor strengthen their positions very quickly on the all-important issue of constitutional revision and a constitutional convention, then I shall feel compelled to file as a candidate for governor."

Boswell served on the Arkansas Constitutional Revision Study Commission and said earlier he most likely would not seek the office so he could continue his work toward a constitutional convention.

Gov. Winthrop Rockefeller is the only Republican candidate to announce, Little Rock insurance executive Frank Whitbeck and State Rep. Marion Crank of Foreman have announced as candidates for the Democratic nomination.

M14 rifle. The M14 still rates as a standard Army weapon. Secretary of Defense Clark M. Clifford told a news conference last Thursday that "we were giving our forces the preference on the M16s and our other most modern weapons because we were taking the brunt of the effort and the fighting" in South Vietnam.

"Now that the policy decision has been made to turn over gradually the major effort to the South Vietnamese," Clifford said, "We are now starting to give them a degree of preference in our most modern weapons."

He noted the Saigon regime intends to boost its forces by another 135,000 men. The South Vietnamese regular forces total 340,000 men. Another 300,000 are in the militia forces but are not believed to be in line to get M16s at this time.

The Pentagon said increased production of the M16 rifle, now totaling 30,000 a month, will go to other allied soldiers in Vietnam—South Koreans, Thais, Australians, New Zealanders and Filipinos. These allied troops in Vietnam total about 60,000.

Also ticketed for rifles out of the additional production is the U.S. 8th Army in Korea, units in stateside training and other U.S. Army overseas units, the Pentagon said.

At one stage in the testing of the M16 some years ago it was reported the rifle had a tendency to malfunction in very cold climate. Korea is very cold in winter.

London Bridge Is Coming to America

LONDON (AP) — London Bridge is finally falling down—and the Americans are picking up the pieces.

The City of London Corporation announced the sale of the bridge Tuesday night, and a spokesman for the McCulloch Corp. of Phoenix, Ariz., said that firm has bought the 10,000 tons of granite for Lake Havasu City, a resort on the Colorado River.

The price was estimated unofficially at \$2.4 million. Frederick Schmacher, director of the Lake Havasu development, said it would cost about \$240,000

more to ship the disassembled bridge from the Thames to Arizona.

Schmacher said London Bridge, when it rises again, will span a channel across the peninsula on which Lake Havasu City is located.

The 135-year-old bridge joins the liners Queen Mary and Queen Elizabeth and sundry churches and castles on the transatlantic journey.

"How much for Buckingham Palace?" quipped one Briton of the monument drain.

A London Bridge has spanned the Thames in one form or another since Roman times 2,000 years ago. It has been falling down for centuries in the popular nursery rhyme.

The present bridge, built in 1831 and one of 12 across the Thames in London, is too narrow for today's heavy traffic. A wider bridge will replace it.

Purcell May Answer the Question

LITTLE ROCK (AP) — Atty. Gen. Joe Purcell was asked Tuesday by four reporters whether private clubs could legally dispense mixed drinks under the new rules adopted Monday by the Alcoholic Beverage Control Board.

Purcell said under the law he does not have to give opinions to anyone but designated public officials, but he ordered the question "logged in" for study by his staff.

The attorney general was asked, "Does the ABC Board have the authority to license the sale, dispensing or serving of mixed drinks in clubs, hotels or restaurants under any existing state law?"

Raising the question were George Douthitt of the Arkansas Democrat, Herbie Byrd of radio station KLRA, Dale Enoch of the Memphis Commercial Appeal and Ed Shearer of The Associated Press.

Will Have to Win Without 2 Big States

By JACK BELL
AP Political Writer
WASHINGTON (AP) — With Vice President Hubert H. Humphrey's potential delegate strength rising, his strategists are grappling with the problem of how to win the Democratic presidential nomination without New York or California.
The two biggest states together cast 376 of the 1,312 votes needed for nomination at the August convention in Chicago. And as of now Humphrey's chances of getting more than a handful of these votes in the early balloting are considered negligible.
There is some talk of an effort to swing to Humphrey a California slate of candidates put together for President Johnson under the leadership of State Atty. Gen. Thomas C. Lynch. But Democratic National Committee member Ann Alanson has balked at such an arrangement.
In New York, Humphrey's backers expect to pick up scattered support in a 190-vote delegation which now is being counted upon by Sen. Robert F. Kennedy D-N.Y., as the base for an effort to blitz the convention into nominating him.
While his delegate hunters are working the field, Humphrey has postponed until next week, and possibly later, any formal announcement of his candidacy.
The belief among his strategists is that there is no hurry about giving up his status as a non-candidate. They feel Kennedy has failed to manufacture any stampede in his direction since President Johnson announced he would not accept re-nomination.
The only other prospective Democratic nominee, Sen. Eugene J. McCarthy of Minnesota, said Tuesday he drew encouragement from the fact that Democratic governors meeting in St. Louis over the weekend to size up the contenders for the nomination couldn't agree on a candidate.
"I think it looked like a victory for me," McCarthy said while campaigning in Charleston, W. Va. He planned to be in Pittsburgh today.
If Humphrey stands by his decision not to enter any of the primaries he will have forfeited to Kennedy or McCarthy 479 votes that go in the early balloting to the primary winners. These include California's 176, Indiana's 63, Massachusetts' 72, Nebraska's 30, all but six of New Hampshire's 26, Oregon's 35, South Dakota's 26 and Wisconsin's 59.
On the other hand, Humphrey could come out of the South with a majority of that area's nearly 550 votes. To them he apparently can add most of Minnesota's 52, Oklahoma's 41 and share in Colorado's 35, Connecticut's 44, Michigan's 96, Nevada's 22, Utah's 26, Washington's 47 and West Virginia's 38.
Witnesses Called in Murder
WALNUT RIDGE, Ark. (AP) — Seven witnesses were called Tuesday by Prosecutor David Hodges in the second day of the first-degree murder trial of Mrs. Myrtle Clark, 47.
Mrs. Clark is charged in the shooting death of her husband, Millard M. Clark, 51, in his apartment in the Clark Shopping Center here March 18, 1967.
Hodges told the all-male jury in his opening remarks that the state would prove that Clark could not have shot himself, that a Smith and Wesson .38-caliber snub-nosed revolver found next to the body was Clark's and that Mrs. Clark had traces of nitrate (gun powder) on her left hand.
Fred Pickens Jr., one of Mrs. Clark's attorneys, said in his opening remarks that Mrs. Clark had been active in civic work in the area and had raised "three lovely children . . . and stuck through those rough years . . . even the time Millard was accused of larceny for stealing government property."
Clark and five other persons were accused in June 1965 of taking some \$100,000 worth of government property. Clark pleaded guilty to two counts and was fined \$10,000.
Didn't Intend to Take No
DENVER, Colo. (AP) — From the looks of the ballot, the University of Denver student senate didn't intend to take no for an answer in a referendum on whether graduate students should be allowed to vote and hold office.
The ballot listed only "yes" boxes.

No Effort to Block Withdrawal

By GEORGE ESPER
Associated Press Writer
SAIGON (AP) — A senior U.S. officer said today the American forces that lifted the siege of Khe Sanh made no effort to block the withdrawal of the North Vietnamese because "militarily it was unwise and a waste of troops."
"Blocking them was impractical," said the officer. "They were around Khe Sanh from west, northwest and southwest. They had dozens of escape routes. They could always go around you. Militarily, it was impossible. We would have needed three divisions of troops."
"Our objective was to lift the siege of Khe Sanh. If they stood and fought, it didn't matter whether we blocked them or not."
Senior U.S. officers have claimed that air strikes, the most concentrated in any war, were the main factor in breaking the 77-day siege of the combat base near the demilitarized zone. The siege was declared lifted April 5 as a 20,000-man relief force drew close to the base and its Marine defenders.
A U.S. intelligence memorandum is being circulated among top officers of Gen. William C. Westmoreland's staff giving a brief summation of the siege.
It says that by the end of March American ground forces had killed more than 2,000 of the enemy and an additional 1,300 were killed by air strikes.
The intelligence summary said that by Jan. 15, the North Vietnamese had deployed two divisions and supporting elements in the Khe Sanh area.
"B52 and tactical air strikes were massed against the enemy's combat forces and his fire support and logistical areas commencing on Jan. 13," the report continued.
"On Jan. 20, a sizeable enemy force attacked the Huang Ma sub-sector headquarters, south of the combat base. A defector stated his battalion lost over 50 per cent of its men during this attack due to B52 strikes, and intelligence disclosed that this concentrated firepower pre-empted a series of the enemy's planned attacks."
"Air strikes alone accounted for 235 trucks, 313 gun positions, 990 bunkers, 1,219 structures and 13 tanks either destroyed or damaged."
"By March 25, we saw that the enemy had significantly reduced his trenching activity and was not repairing destroyed positions. We now have strong indications that the enemy had withdrawn major elements from the immediate vicinity of the combat base."
The operation to lift the siege of Khe Sanh was begun April 1. Military sources said that after the siege was lifted and ground troops began sweeping the area around the base, they uncovered nearly 1,000 enemy bodies, victims of air strikes and artillery.
The U.S. Command announced today that U.S. Marines and air cavalrymen killed 1,041 North Vietnamese troops in the first two weeks of April—during the lifting of the siege and the succeeding sweep of the

Reagan Will Try for an Assessment

By BILL BOVARSKY
Associated Press Writer
SACRAMENTO, Calif. (AP) — Gov. Ronald Reagan says "Obviously, I'm going to try and make an assessment" after hearing a report by a Republican political strategist that there is growing grassroots support across the country for a Reagan presidential bid.
"I'm certainly not going to run away and pretend it isn't happening," Reagan told a news conference Tuesday. He outlined a new speaking tour to the Midwest, South and Hawaii, starting April 26.
A report prepared by F. Clifton White, a former Barry Goldwater aide now advising Republican convention delegates in California, was discussed by Reagan.
"There seems to be an increase in the grassroots movement in my behalf," Reagan said. He said he still considers himself only a favorite son candidate but acknowledged that an approaching tour will make it more difficult to convince people that he is not a presidential candidate.
Reagan said, however, he refuses to "get frightened into staying home and not doing what I can for a cause that I believe is very important because, frankly, I don't believe this country can afford four more years of the lack of leadership that we have had under the other party."
The former actor, in his first term as California's governor, said he would meet with Gov. Nelson A. Rockefeller of New York and three other Republican governors to discuss the party platform.
Reagan will act as host to Rockefeller and Govs. Raymond P. Shafer of Pennsylvania, John Love of Colorado and John Chafee of Rhode Island at a meeting May 8 in San Francisco.
Refuse Hauled Away Free
MINNEAPOLIS, Minn. (AP) — Minority communities in Minneapolis will get their winter's refuse hauled away first—and without charge—under a plan announced Tuesday.
Sponsors said private companies agreed to supply trucks and drivers for the annual spring cleanup.
Thirty-nine trucks—each representing a year in the life of Dr. Martin Luther King Jr.—will meet at the courthouse Saturday morning and will travel in a caravan with a police escort to North Side and South Side areas.
Mountains and valleys around the base.
U.S. losses were put at 92 killed and 367 wounded.

Antitrust Is Not Simple Anymore

WASHINGTON (AP) — The U.S. antitrust laws were based on the simple concept that competition is in the public interest.
BY EDMOND LE BRETON
Associated Press Writer
So if there are two banks—or grocery stores, or newspapers, or whatever—in a town and one buys out the other, government—the theory ran—has a right to look over the deal and perhaps intervene.
The world is more complicated today. What should government do when confronted with the conglomerate merger now so characteristic of economic life?
Suppose a distillery, for example, buys a copper tubing plant, a chemical firm, a textile mill and finally some raw, wooded land to hedge against inflation. Is competition diminished? Is a dangerous economic concentration created? Is it any of government's business?
Congress is moving, though not too rapidly, to consider these problems. Its concern came to the surface in the Senate-House Economic Committee's annual report.
The majority report urged the Federal Trade Commission and the President's Council of Economic Advisers to "probe deeply into the ramifications of the growing concentration of economic power flowing from the increasing conglomerate mergers."
The Economic Committee has no power to produce legislation but serves as a sort of front-runner for the legislative committees. Its job is to pinpoint issues on which they may decide to act.
The report noted that some of the provisions of present tax law actively encourage mergers.
For example, a company that has been running deep in the red may be an attractive buy for one that has been piling up

profits and expects to continue to do so. Losses can be carried forward and offset against gains, significantly reducing taxes.
The corporate tax rate on its first earnings, may pay less tax than a single company earning the same total amount.
There is also the problem of family-owned enterprises. The principal owner dies and the government claims its estate taxes. Sometimes the heirs, pressed for cash, find the best solution is to sell out to a large firm.
In a supplementary report, an old enemy of mergers, Rep. Wright Patman, D-Tex., went further than the majority. He urged that the Cabinet Committee on Price Stability join the movement.

NLR Freedom Choice Plan Not Enough

NORTH LITTLE ROCK (AP) — A freedom of choice plan used by the North Little Rock School District was criticized Tuesday by the Department of Health, Education and Welfare as not going far enough fast enough to eliminate a dual school system.
HEW officials told the board at a special meeting here that it appeared that construction of two junior high schools and a new high school might solve some of the district's desegregation problems.
HEW gave the board until July 1 to come up with a new desegregation plan or face possible action by the federal government.

Fight Against White Racism

LOS ANGELES (AP) — Church organizations are urging department stores to display Negro dolls as part of a drive against "white racism" in Southern California.
And a manual being prepared by United Presbyterian officials advises readers, "if you have young children or grandchildren, give them a Negro doll to love."

Fay Bainter, Actress, Dies at 74

HOLLYWOOD (AP) — Actress Fay Bainter, who won an Academy Award for her portrayal of Aunt Belle in the film "Jezebel," is dead at 74.
The actress, known for motherly roles in such films as "White Banners," "Woman of the Year," "State Fair" and "The Children's Hour," died at her home Tuesday night after a long illness.
Plans were for her to be buried in Arlington National Cemetery in Virginia beside her husband, Navy Lt. Cmdr. Reginald Venable who died in 1964. Their son, actor Reginald Venable Jr., survives.
Miss Bainter, who was a stage actress before she entered films, began her career when she was 6, appearing with stock companies in her home town, Los Angeles.
In 1933 she made her screen debut as Lionel Barrymore's wife in "This Side of Heaven." She was 41. Four years later she won an Oscar along with her costar in "Jezebel." Bette Davis.
Miss Bainter was nominated for Oscars twice again for performances in "White Banners" and "The Children's Hour." In the latter she played a grandmother deceived by an evil child.
She appeared in a total of 39 films, familiar always for her roles as wife, understanding mother or faithful friend.

The President Likes Ice Cream

HONOLULU (AP) — President Johnson's zest for ice cream led two aides on a merry chase during his Honolulu motorcade.
As Johnson drove through the Waikiki Beach area Monday, he spied a dairy bar and dispatched a Secret Service agent and the presidential valet to fetch cones for him and Gov. John A. Burns.
The familiar bubbletop limousine, flown here from Washington, came to a stop and the aides set out. But Johnson's bodyguard apparently decided it wasn't a good idea to keep the President stalled in the middle of the street while beach crowds converged on him. His car moved on.
Some 20 blocks later, the ice cream bearers caught up with Johnson—their wares dripping freely at that point.

Admits She Shared Room With Sweetie

NEW YORK (AP) — Linda LeClair, Barnard College sophomore facing expulsion from school for admittedly sharing an off-campus room with her boyfriend, said Tuesday Barnard's housing regulations "are an infringement of our basic individual freedom."
A student-faculty judicial committee reserved decision after a two-day trial. The committee's decision may be overruled by the college president.
"I'm old enough by law to live anywhere and with anyone without my parents' permission," Linda, 20, said at the hearing. Seated beside her throughout the proceeding was the boy friend, Peter Behr, a Columbia University junior.
She told the committee that she and Behr had distributed 400 questionnaires to students asking if they shared dwellings and received 300 affirmative returns. About 60 of the girls, Linda said, offered use of their

Kennedy Cook Fired Over Book

NEW YORK (AP) — Mrs. John F. Kennedy's German cook, a 24-year-old blonde, says she was fired Tuesday after word of her cook book and television career ambitions got into print.
Annemarie Huste, the cook, said Mrs. Kennedy apparently believed that Annemarie was going to expose the former first lady's private life to public scrutiny.
"I would never allow anything to be printed about her private life," Miss Huste told an interviewer.
A spokesman for Mrs. Kennedy declined immediate comment about the firing.
Miss Huste, a 5-foot-3, 115-pound native of Ulm, Germany, said she received a phone call Tuesday from Mrs. Kennedy's secretary, informing her "it would be better if I didn't come back."
She said a published report that she was making a pilot television film this week, with a view toward syndication, was not true.
Equally untrue, she said, was a remark attributed to her that she hoped to make \$1 million before she was 25. "This couldn't be possible," she said, "because I will be 25 next month."
And as for the unfinished cook book it will include her favorite recipes, not necessarily those she served to the Kennedy family, she said.
Miss Huste said she has worked for Mrs. Kennedy more than two years. She had drawn \$130 a week with the Kennedys, she said.
names if it would help to change the regulations.
Speaking in Linda's behalf Tuesday were a minister, a rabbi and a philosophy professor. More than 250 students and faculty members attended the hearing.

Danger From Within Cited by McClellan

SEARCY, Ark. (AP) — Sen. John L. McClellan, D-Ark., said Tuesday night that the nation was facing "dangers from within" that endangered "the vitality, stamina and tenacity of our will and our resolve."

McClellan, chairman of the Senate Crime Subcommittee, told several hundred persons attending the National Education Program Freedom Forum here he was drawing his observations on the hearings his committee is now conducting on the causes of the civil disorders throughout the U.S.

"Ever since the civil war, this nation has faced dissension, strife, turbulence and violence — dangers from within," McClellan said. "The momentum of momentous events is sweeping us rapidly toward the brink of disaster."

The senator called for a "revival of patriotism" and a greater effort on the part of the public to instill into youth "higher standards of morality and a deeper sense of citizenship obligation."

McClellan also was critical of recent U.S. Supreme Court rulings.

"The unequal justice dispensed in a number of five to four Supreme Court decisions has trampled and degraded the just rights of society while magnifying and exalting the flimsy and exaggerated rights of the criminal," McClellan said.

In an earlier forum speech, M. Stanton Evans, editor of the Indianapolis News, urged that U.S. Foreign police toward Czechoslovakia not be shaped by recent events indicating an expansion of freedom in that Communist ruled country.

Evans said that U.S. "likely would block" the impulse to freedom now being manifested by the Czechs. He indicated that U.S. encouragement toward the trend would be met by stern action by the rest of the communist blocks.

Reaction of Students to Rioting

WASHINGTON (AP) — "How many people are going to die before the world is quiet?" wrote a Negro youngster in a Washington school shortly after the slaying of Martin Luther King and the wave of slum violence that followed.

"The riots helped me because I could go downtown and get clothes and precious rings and toys," wrote another, recounting the three days of burning and looting that broke out in Washington two weeks ago.

"Will there be another leader?" asked another.

Their themes and thousands of others assigned by public school teachers here, where 9 of 10 pupils are Negroes, mirrored frustration at King's assassination, frustration mixed with satisfaction concerning the riots.

The youngsters put their thoughts on paper after Mayor Walter E. Washington expressed the hope that the schools not let an event of such significance to the city slip by without somehow relating it to life in the classroom.

Mrs. Lea Sherburne, a teacher who led the writing project after the capital rioting ended,

said the themes were assigned to youngsters in grades 3 through 9.

"If I had to generalize on everything I read, it really is that this has been quite an emotional experience for all these children and it has brought them face to face with a lot of issues that they are just as unprepared to meet as our society is," she said.

A child's view of a home in flames might be expected to reflect horror in more peaceful communities. In Washington, the reaction the hundreds of slum fires ignited earlier this month included these comments from the pupils:

"Would you like to live in a house that's old and ugly?"

"The paint can be peeling on your house for years and no matter what you say the landlord won't do anything about it."

"Rats and roaches were burned up with those old buildings."

But other children said the violence accomplished nothing.

"My mama told me they think they're hurting whites by rioting but they're really hurting colored because it's colored people who are out of jobs when they burn the stores," one pupil wrote.

Another said: "Now they have burned people out of their homes and they have burned our closest means of getting clothing and food. And now some of the same people who were looting and robbing have to go right back to the white man for food, shelter and clothing."

Television and Radio

By CYNTHIA LOWRY

AP Television-Radio Writer NEW YORK (AP) — It is ironic that in a year marked generally by lackluster entertainment programs, the National Academy of Television Arts and Sciences has come up with more categories and more nominations for its Emmy award for achievement and excellence.

Some 250 programs and individuals have been nominated for industry honor. There are now 31 formal categories for awards plus a number of other broad areas for citation. In the news, documentary and actuality categories alone there are a total of almost 80 nominations.

Five series, none less than two seasons old, are rivals for an Emmy in the "outstanding comedy series" category, but not one new series made the list. And the way the categories are set up permits one actor to be nominated for two Emmies for playing the same role.

Raymond Burr is up for his performance "by an actor in a leading role in a drama" in "Ironside," a two-hour made-for-TV feature, which was actually a pilot for the series, "Ironside," that followed it. He is up for another Emmy for playing the same character in the series.

With such a raft of nominations, it is almost impossible to single out any programs or performers for special mention. And many of the nominated programs were not particularly impressive.

The awards will come May 19 on an NBC program scheduled for 90 minutes. But with so many categories, it may be difficult to crowd the awards, the envelope-opening and the thank-you speeches into the time period.

Charles Collingwood of CBS made an interesting report on his recent eight-day visit to North Vietnam during a special program Tuesday night.

He stated at the outset that he suspected permission to go to Vietnam came because the Communist leaders expected to move into some negotiations with the United States at about that time.

He took film of the busy city of Hanoi, had some shots of bomb damage, and showed activity in the port city of Haiphong. He also had some interviews with government leaders, but they were mostly propaganda harangues.

The reporter found the government in tight control, the people disciplined. He saw no signs of hunger or malnutrition, but food was rationed. He spoke of the pride of the people. His most interesting personal observation was that the North Vietnamese apparently feel that they are moving into negotiation from a position of strength, not weakness.

COFFEE BREAK BLUES

Dear Helen: I'm doing an important job. My brain is clicking on ten cylinders. I'm really in there. Then somebody yells, "Coffee time!"

And if I don't drop everything and hit the "coffee break" right on schedule, I'm considered old.

Why must workers conform to the coffee break if they don't care for it? This means that you waste not just 15 minutes, but probably more than half an hour, for it takes that long to get back into your train of thought. I resent being interrupted for a "social" gathering that leaves me cold. But if I mention this to anyone, they act as if I'm a menace to the establishment. What do you think?—DON

Dear Don: I think coffee breaks, like "going steady", and wearing squaretoed shoes, should be a matter of choice, not conformity-pressure.

If you prefer working through your "break" do so, and the heck with criticism. One powerful excuse: "I'm supposed to cut down on coffee, so I've gotta avoid temptation."—H.

Dear Helen: My husband and I have been separated for several years. However, for the sake of the children, we remain in the same house, sleeping in separate rooms.

Because I have been so lonely, I guess my judgment has been bad. Recently I met a man who said he was a priest, but was leaving the order to become a teacher in a Catholic school. He was charming and easy to talk to. My children and parents thought so too.

I fell madly in love with him and he said he'd marry me as soon as he became an ex-priest and I got my divorce. But one he was sure of me he stopped being the gentle, understanding man I'd fallen for. I did some checking and found he was not in the Priest's Directory. According to the records, he had never been one. Why would he lie? Could there be a mistake? Do I owe it to society to report him?—MRS. B.B.

Dear Mrs. B: If the man isn't acting in the capacity of the church, then what he calls himself is not "society's business"—only yours. Why he lied is his business.

but life he almost certainly did. A man devout enough to become a priest, then a teacher in a Catholic school, would scarcely propose marriage to married woman.

I'd suggest you slam the door on this phony and work on the open door policy between those separate bedrooms at home.—H.

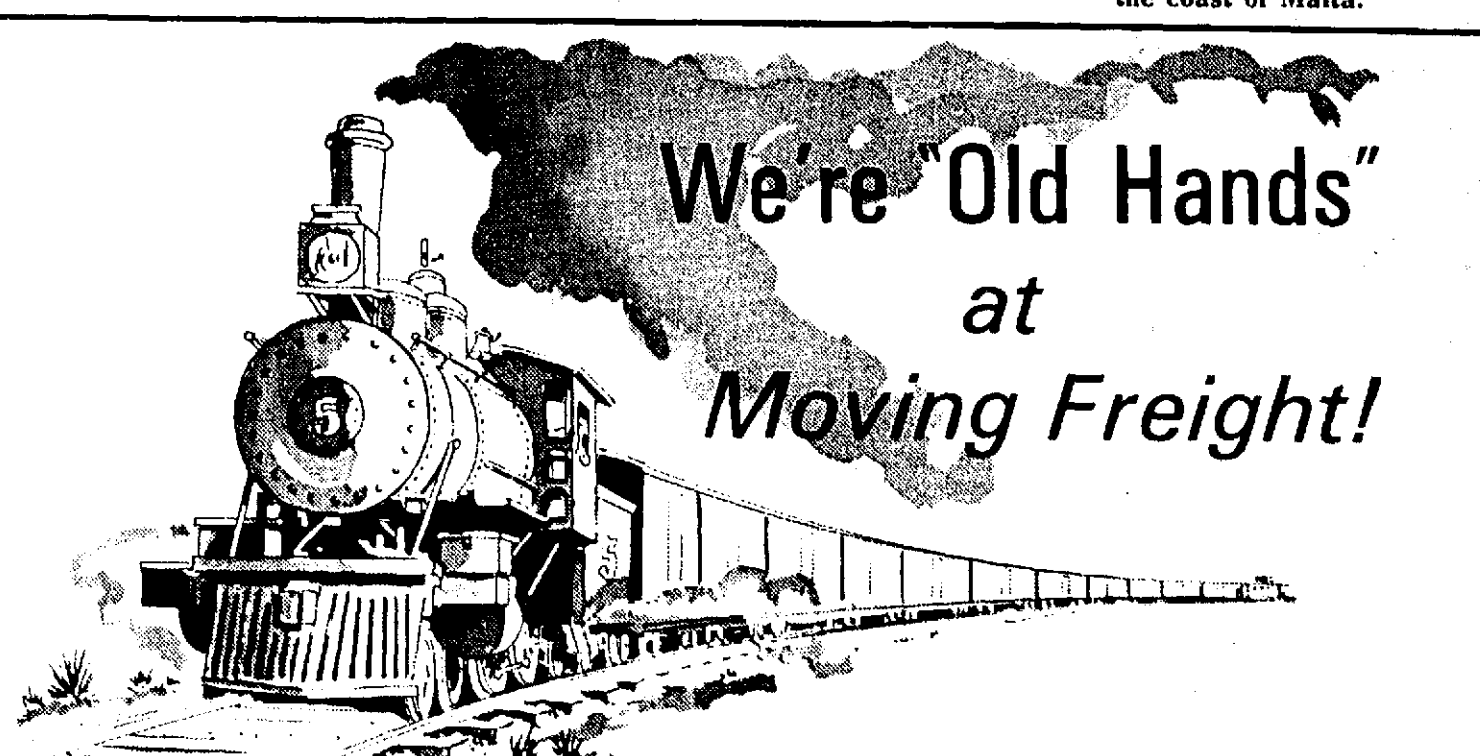

Dear Helen: May I share with you and your readers excerpts from a letter written by a young friend in Vietnam? He knows from experience about the forgotten men—those not receiving mail. He writes:

"Aboard our ships we mail call approximately every six days. On the mainland they never know whether they'll see another mail call. A serviceman away from home yearns for and needs mail, any mail, whether it is a note from a buddy, a love letter or picture 'Little Johnny' drew in school. A letter takes only a few minutes to read, yet it is more: it is almost like a five-minute trip back to the loved ones and the environment of peace so many young men are giving their lives to preserve. How many of those men have died, waiting for mail that was never written!"

"So many people leave letters unwritten, simply because they 'don't have time,' or 'it's such a bother.' I wonder how many parents (or friends) at this very moment are punishing themselves for not taking a few moments to write from their hearts to someone who is no longer living."—KEN BAXTER, TEX, USN OUT OF VIETNAM (as written to Mrs. E.G.)

Hard Boiling of Eggs Cuts Salmonella Danger

By WAYNE G. BRANDSTADT, M.D.

Q—Is there any harm in eating eggs that have been removed from the shell and kept in the refrigerator?

A—If the eggs were good to begin with and are not kept so long as to have spoiled, they can be eaten raw or cooked. If, however, the shells were cracked before you took the eggs out of the carton there is danger of

bacterial (Salmonella) food poisoning. Refrigeration does not lessen this danger but thorough cooking (hard boiling) will eliminate it.

Q—My husband eats about six eggs a day. He is 46 and not overweight. Could that number of eggs have any bad effect?

A—Although eggs are an excellent food, their yolks have a high cholesterol content. Most doctors now advise eating three to six eggs a week.

Q—Does eating raw egg whites harm the kidneys?

A—No.

Q—What foods are permitted on a bland reducing diet?

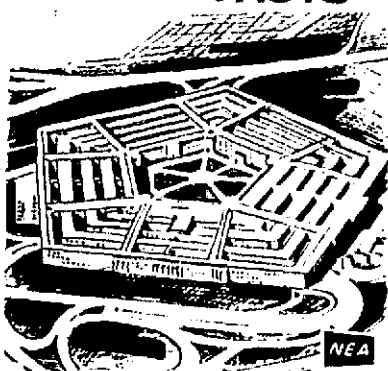

A—A bland diet omits pepper, mustard, horseradish, vinegar, catsup and spices in general. Also, it should contain a minimum of roughage—no raw fruit or vegetable and no bran. A small amount of pureed vegetable or fruit is sometimes allowed.

A reducing diet omits most but not all of what's left. That explains the popularity of the several products that give 225 calories per serving and still supply all of the body's needs.

Q—Is it beneficial or harmful to take a little nap after a meal? Could it cause obesity?

A—A 15- or 20-minute nap after the noon or evening meal is an excellent restorative for both muscle and mind. Obesity will result only if a person eats more food than he needs for his daily activity—too much food and

WORLD-ALMANAC FACTS

World's largest office building is the Pentagon. Standing on the Virginia side of the Potomac just outside Washington, the huge five-sided building covers 34 acres, has 17 miles of corridors and houses 27,000. The World Almanac says. It was completed in 1943 at a cost of \$83 million and is made up of five concentric buildings of five floors each, connected by 10 spokelike corridors.

QUICK QUIZ

Q—Where did tumble dolls originate?
A—The first tumble doll was an image of Buddha, a Chinese god. Such dolls were weighted at the bottom, for the Chinese believed Buddha could not fall. Push this doll over and it bobs up again. The Chinese name for it means, "struck, not falling."
Q—Which is the only state in the Union bordering on two oceans?
A—Alaska, bounded on the north by the Arctic Ocean and the south by the Pacific.

Faubus Pays Visit, Sneaks Away Again

By JOHN R. STARR
Associated Press Writer
LITTLE ROCK (AP) — Former Gov. Orval Faubus sneaked into Arkansas over the weekend, dropped a few hints that he may be reconsidering his decision not to seek office this year, then fled back to his western "hideaway," where he is writing a book.

Contrary to rumors, Faubus said in an exclusive interview with The Associated Press, he has not been in Arkansas since he dropped out of sight four weeks ago.

Hardly a day has passed since Faubus wrote in his weekly newspaper that he was "going west" and disappeared without someone reporting having seen him in the state.

Faubus, tanned and relaxed, said he sought solitude to work on his book about his World War II experiences and that he has finished 150 pages.

"I'll take about two weeks more," he said. Then he plans to return to Arkansas and that would put him back in the state before the May 1 filing deadline for the Democratic primary.

Will he run for anything? Faubus laughed. "I don't think I'll even get around to reconsidering until just before the deadline," he said.

If he runs, will it be for governor or the United States Senate? No comment.

If he runs for governor, how will this affect his friends, many of whom have lined up in support of Frank Whitbeck? "They can go ahead and support him and switch to me after the primary," Faubus chortled.

Faubus declined to comment on the present political situation in Arkansas, but he said he has kept up with developments "fairly well" through periodic telephone calls to Francis "Shrimp" Murray, editor of his newspaper at Huntsville.

He said he has not received Arkansas newspapers in his "hideaway," nor any other mail.

Faubus said a published report that he may have gone west to talk with wealthy conservatives about financing a campaign against Sen. J. William Fulbright were erroneous.

"I got some offers, which were co-incidental," he said.

Faubus said he returned to Arkansas to take care of some business and pick up his World War II diary, which he needs for the book.

He arrived in Little Rock Saturday, spent Sunday and Monday in Huntsville and left from Little Rock Tuesday night.

He would not reveal the location of his hideaway, but he dropped a clue by saying, "They are really fishing that Sam Rayburn Lake." The Rayburn reservoir is in East Texas.

Faubus was asked about rumors that he left Arkansas because he was having some trouble with Mrs. Faubus. "Yes, we've had trouble about 35 years, we've been married 36 years," he said with a hearty laugh.

A source close to Faubus said the former governor recently wrote a political ally that he would return to Arkansas before May 1 and that he might run, either for governor or the Senate, because he did not want either Gov. Winthrop Rockefeller or Sen. J. William Fulbright to win re-election by default.

Late entry in a race would be nothing new for Faubus. He filed only 20 minutes before the deadline when he first ran for governor in 1954. He had announced earlier that he would not be a candidate.

One Attack the Editor Asked for; Paper Work's End

There's a strategic situation in the "back 40" that's been puzzling me this Spring — but what happened yesterday did help matters. For those of you who came in late on this show, the "back 40" is a small wildlife preserve adjoining my backyard, and the problem children are a mated pair of Canada Geese who haven't produced a gosling so far.

Unhappily I had put a pair of white downy geese in with the Honkers just because the white ones were amusing — the bossy "Mrs. Grundy" and her mate and hatchet-man "General Charles de Gaulle." But the domestics and the Canadians set up a community nest, and the bossy Mrs. Grundy insisted on being sole manager of the hatchling.

It was a disaster. Eighteen eggs two Summers ago; 22 eggs last Summer — and not a gosling. I was thinking strongly about getting rid of the white pair so the Honkers would have a chance — when the Canadians settled matters themselves by breaking off diplomatic relations with the domestics.

The Canadian hen set up her own nest, in a new location, with her gander standing guard. Naturally I wanted to know how many eggs she had, but Mr. Canada warned me off with warlike gestures.

Yesterday I found the hen off the nest but standing close by with her mate. I walked over cautiously to take a look. Both promptly charged — and one actually struck me. I never did get to see the eggs, and the hen returned to the nest.

But I came away feeling better. If the Canadians would do that to the guy who's feeding them I have nothing to fear from the bossy Mrs. Grundy. They'd tear her up.

This isn't good news for people who've just finished the death-grapple with federal income tax returns but I have to warn you that the state income tax return is still ahead of you — and it's a rough one this year.

The deadline for filing isn't until May 15 but you need to get an early start because this year the state hasn't just made some changes — it has brought out an entirely new form. I finally filed mine April 13, but it took longer to prepare than ever before.

It does seem that as long as the state was going to change its return it might make it parallel the federal report. But that isn't the case. Items are arranged differently — and you better start compiling the return in April if you expect to sleep well in May.

Negro Files for Seat in House

LITTLE ROCK (AP) — The Rev. York W. Williams Jr., 38, a Dermott Negro, filed today as a Republican candidate for the Arkansas House.

Williams, president-elect of the Arkansas (Negro) Teachers Association, is seeking the seat presently held by Lamar Dingler, a Democrat, who represents District 44, which is Chicot County. Dingler has filed for reelection.

Williams is a former Democrat and president of Morris Booker College at Dermott. Williams is a graduate of Arkansas AM&N, the University of Colorado and attended Southwestern Baptist Theological Seminary in Fort Worth, Tex.

Vermont to Import Negroes

MONTPLIER, Vt. (AP) — Governor Philip H. Hoff says Vermont plans to import about 430 Negro teen-agers into the state this summer for an educational and recreational program set up in response to the report of the President's Commission on Civil Disorders.

Workers at Memphis Back on Job

By DOUG STONE
Associated Press Writer
MEMPHIS, Tenn. (AP) — The city's 1,300 garbage collectors return to their jobs today after settlement of a labor dispute that brought Dr. Martin Luther King Jr. to the city where he was killed.

Ahead of the strikers, 98 percent of them Negroes, was the mammoth job of clearing streets and vacant lots of refuse accumulated during the 65-day walkout.

All sides cheered Tuesday's agreement, described as a "memorandum of understanding" rather than a formal contract, although some Negro leaders suggested that it came far too late. Others pledged that a battle here for "equality and justice" had just begun.

Under the pact, sanitation workers, now making from \$1.65 to \$2.10 an hour, will get a 10-cent hourly pay increase May 1 and another 5 cents an hour Sept. 1, along with union recognition and dues checkoffs.

Negro Councilman J. O. Patterson Jr. said this was substantially the same formula approved by the City Council only two weeks after the strike began, before some members reversed their positions.

"Seven weeks ago, we agreed to the main issues almost identical to those before us today," Patterson declared. "And then a majority of the council changed its mind. . . refused to take any action on this matter and a lot of hell broke out across the city and across the nation."

"We could have avoided all this, including the death of Dr. King," he said.

The Nobel Peace Prize winner led garbage collectors on a march through downtown Memphis on March 28. He was planning another march when he was killed by a sniper April 4.

King's successor as head of the Southern Christian Leadership Conference, the Rev. Ralph Abernathy, termed the settlement "a significant victory, a major breakthrough."

The Rev. A. D. King, brother of the slain civil rights leader, joined Abernathy at a victory rally for the strikers and proclaimed that "this is just the beginning."

"We live in a sick nation," he said. "A few days ago, I thought Memphis was on the death list. Today it appears it may live again."

Abernathy said the settlement marked a step forward, but did not compensate the poor for their financial losses. "Nor is it compensation for the loss of our brother and leader, Martin Luther King Jr."

Laneburg Jr. Play Friday

In This Rich Land Boredom Is as Big a Problem as Poverty

By HAL BOYLE
NEW YORK (AP) — In the richest land on earth, boredom is perhaps as big a problem as poverty.

The apathy that afflicts us affects all levels — the rich, the poor, the young, the middle-aged, the elderly. The complaint is the same: "I'm just tired of everything. I don't know what to do with myself to keep from getting bored."

Some years ago a friend of mine, after passing his 10th birthday, began what amounted to a slow retreat from social life. He became withdrawn, spent more and more time alone. When I asked why he was omitting the hermit crab, he replied philosophically:

"I decided that the big decision you have to make in middle age is whether to spend the rest of your life being bored or being lonely. In my case, I'd rather be lonely."

With most of us the choice,

Undue Toleration of Violence Seen as Big Fault of Americans Local Plant Sold to Texas Firm

The bankrupt Southern Plaster Corp. plant here was sold at auction today to the Wynnewood Products Co. of Dallas, Bob Stilling, officials of the Texas firm which was the only bidder, declined to comment on the amount of the bid. The plant manufactures particle board.

Mr. Stilling said the new owners plan to put the plant into full production as soon as possible. This means a three-shift, seven day week operation with 100 employees.

A call has already been issued for supervisors and key personnel to return to their old jobs and Mr. Stilling figures it will take from three to four months to get into the three-shift production. Much will depend on the availability of raw materials used.

The firm operates two other plants, one at Jacksonville, Texas which is about the same size as the Hope plant and the other at Black Mountain, N.C., near Asheville.

The local plant filed bankruptcy in March and Arnold M. Adams of Little Rock was named referee. Mr. Adams appointed Crit Stuart Jr., an employee of the Plasterwood firm, as receiver. Wynnewood has been operating the plant under a lease-lease basis for about two weeks.

The bankruptcy petition said the Corporation had assets worth \$669,506 and that its debts totaled \$1,010,310.26, including \$386,942.26 secured by lien and \$593,516.08 owed to unsecured creditors. It also owes \$19,546.70 in federal taxes, \$3,571.79 in state and local taxes and \$3,933.75 in back wages, the petition said.

Hope Student Joins Governor, Others to Tape NBC Agri Show

Harry R. McMahon, son of Mr. and Mrs. Lyle McMahon of Hope, will leave Friday, April 19, for California where he will participate in the taping of NBC's Agriculture U.S.A. show with Governor Winthrop Rockefeller, Dr. Ahmed Kattan, Professor of Horticulture at the University of Arkansas, and five other Arkansas students.

Harry is a junior Business Administration major in Agriculture at Southern State College. He is a defensive tackle on the Mulderider Varsity football team. Harry is a member of the Letterman Club, the Agriculture Club and Tri C.

This is the third time in recent years that Mr. Rockefeller has been the guest expert on the Agriculture U.S.A. show, a program that is televised nationally, and is designed to present the true

image of agriculture to the general public. Each time he has participated, Mr. Rockefeller has asked Arkansas youngsters to represent the agricultural industry in Arkansas and the contributions that have been made to the field through research in our state.

Other students making the trip will be Ricky Eoff, of Arkansas State University; Thomas J. Jasper, of Arkansas AM&N College; Larry Ray, University of Arkansas; Miss Margo Gibson, Arkansas Tech (National Cotton Pickin' Queen); and Miss Janis Barnes, University of Arkansas (American Honey Queen).

All participants on the show will be the guests of Mr. Rockefeller. They will leave Friday at noon from Little Rock with the Governor in his private plane and will first go to San Antonio where the students will visit the HemisFair while Mr. Rockefeller is attending a meeting of the Santa Gertrudis Breeders International, of which he is president. They will fly to California on Saturday where taping of the show is scheduled for Saturday evening at the NBC Studios in Burbank. The group will return to Arkansas on Sunday.

Showsers Are Expected
By THE ASSOCIATED PRESS
A cold front advancing toward Arkansas was expected to become stationary across North-west Arkansas today, setting up a prolonged shower situation. Showers and thunderstorms are forecast for the state through Friday.

A line of weak showers moved across Northeast Arkansas this morning. High temperatures Tuesday ranged from 85 at Camden to 75 at Walnut Ridge. Overnight lows ranged from 70 at Texarkana to 51 at Warren. Rainfall reported for the 24-hour period ending at 6 a.m. today included .02 of an inch at Fayetteville, .78 at Harrison, .65 at Walnut Ridge and .40 at Blytheville.

War, Peace Issues in Conference

By FRANK CORMIER

HONOLULU (AP) — Issues of war and peace in Vietnam and tensions in the potential Korean powderkeg occupied President Johnson as he welcomed President Chung Hee Park of South Korea today for a one-day conference.

Park arrived in Honolulu well after dark in a light drizzle and was met by Johnson.

The Korean leader, attired in a gray business suit, waved at a cheering crowd that pressed against the fence.

Once formalities such as a 21-gun salute and the Korean national anthem were over, Park moved along the fence with Johnson to greet the crowd, then climbed into a helicopter to be whisked to his hotel.

The two chief executives had a full round of formal meetings set for today at the Hawaiian White House — the luxurious ocean front estate of the late industrialist Henry J. Kaiser.

Park's visit coincided with important developments affecting war, peace

Vietnamese Get New Rapid-fire M16 Rifle Ahead of U.S. Troops

By FRED S. HOFFMAN

WASHINGTON (AP) — The United States is giving South Vietnamese troops lightweight, rapid-firing M16 rifles ahead of American soldiers manning the defense line in South Korea.

The Pentagon also disclosed, in response to questions, that it plans to triple M16 production and reach a total output of about 100,000 of the rifles a month by November 1969.

A major U.S. goal is to provide South Vietnamese regular forces with modern weapons and greater fire power so they can shoulder the biggest share of the fighting.

U.S. combat troops and some support units in South Vietnam are already equipped with the M16. So are elite South Vietnamese army outfits such as paratroopers.

Asked whether the South Vietnamese forces have a higher priority for receiving M16s than do the 50,000 U.S. troops in South Korea, the Pentagon replied:

"South Vietnamese forces presently have a higher priority."

Army sources said American troops in South Korea — facing more aggressive North Korean probes in the past few months — carry the heavier and older

Fighting in Vietnam Is Accelerated

By EDWIN Q. WHITE

SAIGON (AP) — North Vietnamese gunners resumed the shelling of Khe Sanh with the fury of the worst days of the U.S. Marine bastion's 77-day siege, U.S. military spokesmen reported today. They said 19 Leathernecks were killed, 56 wounded and 14 are missing.

The casualties were the heaviest in two weeks at the combat base, officially relieved 12 days ago. The North Vietnamese mounted a 250-round attack by artillery, mortars and 100-pound rockets.

U.S. military spokesmen put North Vietnamese dead at 20 after a Leatherneck patrol Tuesday attacked a Red bunker complex four miles south-southwest of the U.S. base in the northwest corner of the country.

An estimated 40 North Vietnamese hit the Marine combat patrol with mortars and rockets and then laid down intense small-arms fire. U.S. fighter-bombers and artillery pounded the enemy bunkers until the North Vietnamese escaped about midnight.

North Vietnamese artillery attacks on the Khe Sanh base, which subsided after the siege was lifted April 5, also have increased this week. Enemy gunners hurled 250 artillery and rocket rounds on Khe Sanh Tuesday, causing "moderate" damage to U.S. supply areas, U.S. spokesmen said. On Monday, about 300 mortar, rocket and artillery rounds hit the base.

To the south, allied forces pushing through jungles and rice paddies in the biggest offensive of the war reported six sharp clashes within 85 miles of Saigon. It was one of the busiest days so far in Operation Complete Victory, the 100,000-man sweep which began April 8.

A unit of the U.S. 9th Infantry Division killed 12 enemy in a brief fight 31 miles east of the capital. Two Americans were killed and two wounded.

Twenty-five men of a South Vietnamese airborne battalion were wounded in a battle seven miles north of Saigon. There was no report of enemy losses.

In the Mekong Delta 15 miles southwest of Saigon, a Vietnamese regional force company encountered a strong enemy force and two companies of the U.S. 199th Light Infantry Brigade were sent in as reinforcements. Three Americans and 14 government soldiers were killed along with three Vietnamese civilians. Eleven enemy dead were reported.

The measure was scheduled for a vote today.

Hart and his colleagues are trying to overthrow action by the Senate Agriculture Committee, which chopped the three-year, \$96-million free-lunch pilot plan out of a bill to extend the school breakfast program enacted two years ago.

The new program was passed unanimously last month by the House. The Senate committee cut it out without holding public hearings.

It also reduced authorized spending for the breakfast program. See SCHOOL LUNCH On Page 2

Watson Chapel School Plan Questioned

PINE BLUFF, Ark. (AP) — The degree of desegregation of the Watson Chapel School District has been questioned by the Pine Bluff branch of the National Association for the Advancement of Colored People.

The branch asked the state and national NAACP to try to get the Department of Health, Education and Welfare to investigate whether the district is in compliance with HEW desegregation guidelines.

A spokesman said NAACP members had received complaints that made them suspect that the district is not in compliance and that members were also concerned about the pace of faculty and student desegregation.

School Supt. L. L. Owen said HEW representatives checked the district last year and, although they said the degree of student desegregation left something to be desired, they had no complaints about faculty desegregation.

Bids Sought on Barge Work

LITTLE ROCK (AP) — Bids are being sought by the Army Engineers on three all-welded steel deck barges to transport 50-ton crawler type cranes to be used to maintain structures along the Arkansas River navigation channel. Bids will be opened May 29.
